HOLIDAY HOMEWORK CLASS - III 2024-2025

Dear Parents,

Vacation is the time for the children to explore their myriad interests and indulge in various activities which would lead to their all-round development. It is an excellent time to learn new skills. Just the right time to let the children do some creative work.

Here are some interesting and fun-filled assignments for the children to learn and keep them occupied during the holidays. These assignments have been designed to ensure that the children enjoy and learn at same time. We would appreciate if the children do the assignments on their own. Help and guidance may be given wherever required. Let's work together towards the betterment of the students.
